

Science with a Mission, Inc.
"Providing Diagnostics for the Developing World"
Oct/Nov/Dec 2017 Newsletter

Continents: 6 out of 7 ain't bad

North America

- Largest population density of any continent
- World headquarters for Science with a Mission
- Did you know Central America is part of North America?

E-mail from **Nicaragua**:

"**HIV testing was a huge success**, all negative results. We saw **over 1700 people in clinic**. All the tests were utilized! Thanks so much!
Blessings, Carmen"

Africa

- Nile – longest river in the world
- Sahara – largest desert in the world
- Say "thank you" to Africa for 66% of the world's chocolate

Taking time to set a little girl at ease with a stethoscope in **Senegal**

E-mail from **Zimbabwe**:

"Thanks so much Alynne,

We are so **eternally grateful** for your service, and again, will provide a picture of our team testing in **Zimbabwe**.

May the Lord continue to give you favor and blessing in your ministry!

Gratefully,
Mary"

Using Science with a Mission diagnostics in **Zimbabwe to diagnose patients**

South America

- Brazil – world's largest coffee producer
- Home of the anaconda – one of the world's largest snakes
- Ojos del Salado - world's highest active volcano
- Lake Titicaca - world's highest lake (I've been here ☺)

Asia

- Largest continent
- Covers one-third of the earth's surface
- 30% of the earth's land area and 60% of the earth's population
- 10 highest mountain peaks in the world (including Mount Everest)
- Tigers and pandas are indigenous only in Asia

SMI tests being used in Vietnam

Thumbs up after good test results in PNG!

Australia

- Largest island, smallest continent
- Kangaroos, koalas, platypus and emus live here
- Australia has 14 times more sheep than humans
- Some geographers now consider Oceania to be a continent (in place of just Australia) and they add New Zealand, **Papua New Guinea** and many South Pacific Islands

E-mail from **Papua New Guinea:**

"Hello Alynne,

I have attached a few pictures from Papua New Guinea to share with the children of Sacred Heart Elementary School who donated money that was used to purchase lab tests in the clinic there. None of the pictures are specifically lab related, but all are clinic patients. Hope they can enjoy the pictures when they start back to school.

The **lab tests** I have used so far **in PNG** **have been a great help!**

Thank you!

Rachel"

Europe

- Vatican City is the world's smallest country
- Golf was invented in Scotland and Cricket was first played in Britain
- Germany is the most populous country in Europe

With your support, we have sent more than 370,000 tests to 73 different countries around the world...on 6 of our 7 continents. Who's up for a trip to Antarctica?

Thanks for joining us on this journey!
